

## **Final Report School Library AIMS Int. Academy Koteshwor, Kathmandu**

This report outlines the successful completion of the school library enhancement project, made possible through the generous support of **TGUP**. The focus of the project was to enrich the library's collection by procuring a wide range of books, thereby fostering a culture of reading and learning among students and staff.

A Project Committee identify the required books which are fiction and non-fiction titles, Children's literature and young adult novels, subject-specific resources (science, history, math, etc.) and inspirational and biographical works. Books were purchased from one of the best book store of Kathmandu. All purchases were made within the allocated budget and in accordance with the school's procurement policy. Each book was cataloged using the existing library system and labeled for easy identification. Shelves were reorganized by genre and subject area to improve accessibility. The book procurement initiative has successfully achieved its objectives and has greatly enriched our school library.
