

TGUP Project Summary

Barahachhetra School

New Playground

Badachaur, Dang District, Nepal

**Project Name:**

New Playground for Barahachhetra School

Project Location:

Badachaur, Nepal

NGO Partner:

Nepal Women Community Service Center (NWCSC)

Project Cost:

\$1,716. Total cost is \$2,145 but community providing 20% of costs.

Needs Assessment:

- The school was built in 1960 and many of the facilities have deteriorated and are unsafe.
- The students and community do not have access to any safe playground equipment.

TGUP, in partnership with the Nepal Women's Community Service Center (NWCSC), will install a new playground for the 593 students at the Barahachhetra Secondary School in Nepal consisting of a sand volleyball court, swings, and slide structures. The existing limited playground equipment is rusted, dilapidated and dangerous for the children to use.

TGUP previously worked with NWCSC to open a sewing center to make washable, reusable sanitary supplies, has provided masks and food support to day workers displaced by Covid-19 and built a new classroom for this same school. We are also hoping to install a water purification system to bring potable water to the school.

The school offers scholarships to children who cannot afford to go to school and is committed to providing high quality education to all attendees.
