Number of beneficiaries (Students): 362

## A Brief History about Catholic primary school Dibanda

Catholic primary school Dibanda is found in Dibanda village community. The school is being attended by very poor village children aged 4-12 years, many of whom are orphans, girls and internally displaced children. Indeed, the establishment of the school 15 years ago has facilitated school attendance for school going age children who had no access before and/or who used to walk long distances to attend school especially the less privilege children. A total of 362 pupils attends Dibanda community primary school of which 190 are girls and 172 boys based on the head teacher. Presently the school is being managed by the poor peasant community (Parent Teacher Association) who are struggling to raise funds to pay six (6) teachers employed to teach in the school.

The poor peasant community is unable to raise enough funds to construct a permanent classroom. The current four classrooms in the school are built of plank and they are all at a dilapidated stage. One of the classroom is without roof but poor and needy children still study inside the classroom because there is no other option. (Photos available above).

Education is a fundamental right of every child, yet hundreds of children in Dibanda primary school lack access to proper learning facilities. Dibanda primary school currently serve 362 pupils with just four dilapidated plank classrooms. Class 2 & 3 share the same classroom. The lack of adequate classrooms leads to overcrowded conditions and noisy classrooms. This is hindering effective teaching and learning.

This project aims to address the critical need for classrooms at Dibanda primary school by constructing two permanent classrooms blocks. This project will enhance the learning environment for 362 students, the future generation of the school and support the school's growth towards better educational outcomes.
