

**Final Report on Safe Drinking Water Support for the School Children
Of
MoonTara Aawashiya Vidhyalaya
Ranjha Banke
Nepalgunj Sub metropolitan City -20**

The drinking water project team of Moon Tara Awasiya Vidhyalaya purchased necessary equipments which are needed for the project. They bought reserve water tank, pipe, filtration plant, tile, tap etc. The project team and as well as skilled worker work hard to complete the drinking water project. With their effort the project was completed. Now the students and teachers have access to pure drinking water in these hot sunny days. They all are preventing from having dehydration and from suffering from water borne diseases. All school management team and students are very happy and grateful.
