

Partner Profile

Green Empowerment

Green Empowerment (GE) partners with rural communities and NGOs in developing countries to improve access to affordable and renewable energy, safe drinking water, sanitation systems, and fuel-efficient cook stoves.

Rooted in the core values of social justice, sustainability and local leadership, GE works with communities in 6 countries (Ecuador, Malaysia, Myanmar, Nicaragua, Peru and the Philippines). They provide technologies that enable individuals and families to dramatically improve their quality of life by reducing disease, improving developmental outcomes, and freeing up time to focus on income generation.

GE not only provides the technology to improve lives, they also educate and train the local communities in WASH (water, sanitation and hygiene), latrine use and maintenance, trash management, water storage, treatment and disinfection, and reforestation. Personal, family and community hygiene are emphasized to reduce the spreading of illness and disease.

Partner Name:

Green Empowerment

Partner Website:

<https://www.greenempowerment.org>

Partner Location:

Portland, Oregon

Partner Mission:

Green Empowerment works with local partners around the world to strengthen communities by delivering renewable energy and safe clean water.

TGUP Projects:

* WASH (water, sanitation and hygiene) project in southern Ecuador

* Building potable water systems and compostable latrines
