TGUP, in partnership with Kiini Sustainable Initiative, will fund the construction and installation of a playground for the Githage School. Currently, all they have is an old soccer goal as seen in the above photo.

TGUP has previously funded a large 10-structure playground at the Shining Star School in Nyeri as well as one at the Olmoti School in Tanzania.

This proposal includes four play structures, all made from study steel by a local metal worker. The equipment will then be painted to protect against rust.
