

Partner Profile

Kasimu Education Fund

Malawi is one of the poorest countries in the world with only 25% of the children attending school beyond 5th grade. Most of those going on are boys. The average girl leaves school at the age of 11. 85% of the Malawian population lives in agricultural areas and 16 million live on less than \$1 per day.

The Kasimu Education Fund believes that education holds the key to breaking the cycles of poverty, disease and hunger. It has focused its efforts on making a direct impact on the impoverished village of Manyesa.

KEF provides physical facilities for education of Manyesa's 1,200 children, including classrooms, computer labs, administrative buildings and more. It has reduced the student/teacher ration from 180/1 to less than 50/1 while providing improved facilities.
