

# TGUP Project Summary

## Classroom for Kanjuu Secondary School Ngariama, Kenya

**Project Name:**

Kanjuu Mixed Day  
Secondary School  
Classroom

**Project Location:**

Ngariama, Kenya

**Project Summary:**

Build a new 28'x28'  
classroom.

**Project Detail:**

The new classroom  
will allow for  
increased enrollment  
of up to 40 students  
per year.

**Project Partner:**

Kiini Sustainable  
Initiative (KISI).  
TGUP has completed  
more than two dozen  
projects in  
partnership with KISI.

**Project Cost:**

\$14,177

TGUP, in partnership with KISI, will fund the construction of a new classroom for the Kanjuu Secondary School. The school has 5 classrooms, all in need of repair, for the current enrollment of 140 students. There are many more students that would like to attend but the Ministry of Education has limited enrollment due to the crumbling facilities.

The latrines are also near collapse, so the school is in need of many improvements. In particular, they are in need of a kitchen since most students take their daily meal at school.

The new classroom will consist of stone walls, a poured concrete floor and 5 iron-grate glazed windows. The roof will be made of durable iron sheets. The classroom is expected to provide an education to 1000's of students over its lifetime.

The project will cost \$17,177. Of this, \$3,000 is being contributed by the community, leaving \$14,177 to be funded. This will be the 9th classroom TGUP has built in Kenya.
