

TGUP Project Summary

Playground for Kiahuko Primary School Lamuria, Kenya

Project Name:

Kiahuko Primary
School Playground

Project Location:

Lamuria, Kenya

Project Summary:

Install play structures

Project Detail:

Project will include 8 play structures: 2 sets of swings, 2 slides, 2 seesaws, and two climbing monkey bars.

Project Partner:

Kiini Sustainable Initiative (KISI). TGUP has completed more than 30 projects in partnership with KISI.

Project Cost:

\$10,152 minus \$1,000 of community contribution for a total cost of \$9,152.

TGUP, in partnership with KISI, will fund the construction and installation of a playground for the 454 students at the Kiahuko Primary School. The school has a large open field but no play equipment for the children.

All play structures - slides, swings, climbing structures, teeter totters - will be fabricated and installed by a local craftsman who will use heavy gauge metal. All structures will be anchored into the ground with concrete footings buried to a depth of at least 12". These measures will ensure the equipment is strong and will last for decades.

This is one of 8 projects that TGUP will undertake at the Kiahuko Primary School. The other projects include a new classroom, two sets of latrines, a new kitchen, cooking jikos for the kitchen, piping water in from the nearby water main, fixing water tanks, and installing electricity to the entire school.

This community is contributing \$1,000 towards the project to keep the cost down.
