

TGUP Project Summary

Latrines for

Kiandai Secondary School

Baraghwi, Kenya

Project Name:

Kiandai Mixed Day
Secondary School
Latrines

Project Location:

Baraghwi, Kirinyaga,
Kenya

NGO Partner:

Kiini Sustainable
Initiative (KISI).
TGUP has completed
more than a two
dozen projects in
partnership with KISI,
including classrooms,
latrines, playgrounds,
etc.

Project Cost:

\$6,000

Needs Assessment:

- * There are 107 students and 10 staff who share latrines that are near collapse.
- * Girls often miss school because of the lack of latrines.

TGUP, in partnership with Kiini Sustainable Initiative, will build 4 latrines for the 107 students and 10 teachers at the Kiandai Mixed Day Secondary School in Kirinyaga in the Baraghwi location, Gichugu constituency, of Kirinyaga county. It has 10 teaching staff and 107 students: 53 boys and 54 girls.

It has 4 classrooms that are expected to be insufficient when current primary students move on to secondary school. The number of students is expected to increase by 50% over the next few years. The latrines are leaking and labeled a hazard by the county health authorities. The school is also in need of other facilities including a water catchment system, lab equipment, electricity, and a playground.

This project will provide two private latrines for boys and two for girls, along with a sink for hand washing. This is especially important for girls when they have their period. Otherwise, they miss school.

The budget for this project is as follows:

Materials	\$ 3,746
Labor	\$ 1,595
Other (permits, transportation, etc.)	\$ 659
Total	\$6,000
