

TGUP Project Summary

Latrines for
Kihuyo Secondary School
Nyeri, Kenya

Project Name:

Kihuyo Mixed Day
Secondary School
Latrines

Project Location:

Nyeri, Kenya

NGO Partner:

Kiini Sustainable
Initiative (KISI).
TGUP has completed
more than 20 projects
in partnership with
KISI, including
classrooms, latrines,
and playgrounds.

Project Cost:

\$6,000

Needs Assessment:

* 170 students and
10 staff share two
latrines that are
near collapse.

* Girls often skip
school because of
the poor state of the
latrines and the
absence of a
handwashing area.

TGUP, in partnership with Kiini Sustainable Initiative, will build a set of 4 latrines for the 170 students and 10 teachers at the Kihuyo Mixed Day Secondary School in Nyeri county. The school's enrollment is expected to increase, based on the number of students at feeder schools who are scheduled to matriculate in coming years.

This project will provide two private latrines for boys and two for girls, along with a sink for washing. The latrines will also be shared by the teachers and staff, whose latrines are almost saturated.

The local population is made up of casual workers who often find seasonal work at the surrounding large farm.

The school is also in need of classroom repairs a kitchen, dining area, water catchment, electricity, science lab and play equipment.

The budget for this project is as follows:

Materials	\$ 3,746
Labor	\$ 1,595
Other (permits, transportation, etc.)	\$ 659
Total	\$6,000
