TGUP, in partnership with Seeds of Learning, built a new classroom building for the community of Luz de Cristo near Tipitapa in Nicaragua. The local school was a single room for two teachers and 45 students in pre-school through 6<sup>th</sup> grade. Due to lack of space, the school had to teach half of the students outside and had still had to limit enrollment.

The school now needed resources for the new classroom. This project includes:

• 40" Smart TV	\$458
• 10" Bluetooth speakers	\$127
• Bookshelf	\$120
• Books	\$368
• Educational games	<u>\$240</u>
Total:	\$1,312

The classroom will be used for community events, adult education, vocation training and health services.

This project is endorsed by the Ministry of Education.
