

# TGUP Project Summary

## Girls' Latrines for Mwiyogo Primary School Nyeri, Kenya

**Project Name:**

Mwiyogo Primary  
School Girls' Latrines

**Project Location:**

Lamuraia Zone, Nyeri,  
Kenya

**NGO Partner:**

Kiini Sustainable  
Initiative (KISI).  
TGUP has completed  
more than two dozen  
projects in  
partnership with KISI,  
including classrooms,  
latrines, and  
playgrounds.

**Project Cost:**

\$6,000

**Needs Assessment:**

- \* There are 327  
students and 12  
staff, but no usable  
latrines.
  
- \* The Ministry of  
Health is  
threatening to shut  
the school down.

TGUP, in partnership with Kiini Sustainable Initiative, will construct a new building containing 4 pit latrines exclusively for girls at the Mwiyogo Primary School. Currently, there are 12 teachers/staff and 327 students: 170 girls and 157 boys.

The existing latrines have collapsed, and the Ministry of Health has condemned them as unusable and unsafe. This is an emergency situation for the school and students, as it is at risk of being shut down due to the lack of latrines.

In 2022, TGUP funded a new set of latrines and a urinal for the entire school to use. That building will now be for boys and male staff only.

Now, this project will construct a new building containing 4 stalls with pit latrines just for girls and female staff.

The budget for this project is as follows:

Materials	\$ 3,746
Labor	\$ 1,595
Other (permits, transportation, etc.)	\$ 659
<b>Total</b>	<b>\$6,000</b>
