18th January, 2024

BACKGROUND

Honi Primary School was started in the year 1988 after settlement of the landless persons in Mweiga General Farm (Mweiga Block I). A piece of land was set aside during settlement and it is on this land that the school sits. It started as a nursery school. In 1989, enrolment for standard one took place. The school presented its pioneer candidates for KCPE Examination in 1996.

The school is located in an area classified as an Arid and Semi-Arid Land (ASAL). The area receives very little rainfall. The parents are low income earners and sometimes rely on food aid from well-wishers and government agencies. As such they are unable to raise funds required for improvement of the schools infrastructure.

ENROLMENT BY GENDER

Honi School is a public, mixed day primary and junior secondary school located in Mweiga Zone, Kieni West Sub-County. Currently, the school's enrolment is 290 learners, 140 boys and 150 girls in the Primary and Junior Secondary Level and 40 learners in the Pre-Primary section with a teaching staff of fourteen (14).

SCHOOL NEEDS

Due to the parents' low income, they have not been able to put up decent infrastructure in the school. The classrooms were put up the Nobility group, donors from U.S.A. Currently the school is in dire need of the following:

1. Toilets for the learners and the staff. Currently, the toilets in the school are in a very sorry state as evidenced by the photos attached.
2. A modern kitchen and stoves for hygienic meal preparation. At the moment, meals are prepared in a makeshift structure which serves as the school kitchen.
3. A modern classroom to accommodate Grade nine in 2025. The school has eight classrooms which were being used by the learners during the 8-4-4 system. With the introduction of The C.B.C. Curriculum and the domiciling of Junior Secondary School at the Primary school we need a classroom to accommodate Grade nine in 2025.

BELOW ARE PHOTOS SHOWING THE CURRENT STATUS OF THE SCHOOL INFRASTRUCTURE.
